Introducing the Nano CPN Series 3-15 HP

Our CPN screw compressors are smaller than an equivalent power sized piston compressor. The CPN is designed to work continuously when needed. That means you get 100% performance, 24 hours a day from your equipment. When compared to piston compressors, the continuous operating characteristics of the CPN can lead to reduced power consumption, maximized output (CFM) and lower cost per CFM produced.

Standard Features:

- Sound enclosure & hood (74-80 dBA)
- 60 gal mounted receiver tank (3-10 HP)
- 120 gal. mounted receiver tank (15 HP)
- 3-Phase/208-230-460V, TEFC motors or 1-phase/230V TEFC motor (3-7.5 HP)
- Continuous operating capability-high efficiency airends
- 150 psig standard
- Manual tank drain
- Start/stop operation—CPN 3.0 single phase, CPN 3, 5, 7.5 3-phase
- Load/no-load operation with timed shutdown—CPN 5.0-7.5 single phase, CPN 10-15
- Compact dimensions
- 5 year warranty with authorized start-up

The CP Compressor Guarantee

CP Compressors is dedicated to providing high quality, reliable equipment for your compressed air application and we stand behind our promise with one of the most competitive warranties in the industry!
